Newsletter of the Triangle Woodworkers Association

**Next Meeting:  
!Special Date!**

**October 18, 7:30 PM  
The Woodworking Shop  
3141 Capital Blvd**

**Friday, October 18th meeting. Finishing Techniques.**

Jeff Jewitt, master craftsman, will be presenting a three day program/workshop. Jeff is a master finisher, writer, and teacher from Cleveland, Ohio who is familiar to readers of Fine Woodworking, American Woodworking and other woodworking publications. Jeff has also authored a number of books and videos on finishing. Jeff runs his own finishing shop and is well known as an instructor at the Marc Adams school. Jeff will present an overview of finishing techniques and some of the work in which he is currently involved at the special Friday night meeting. Over the next two days, Jeff will lead workshops on finishing techniques. Hosted by Rob Zacardi. Telephone (910) 590-2340.

## **Annual Auction Nov. 19**

Our eagerly awaited auction will be November 19, at Woodworking Shop- our regular meeting place. If you plan to participate, that is, buy, sell, or help, plan to arrive by 6:00 pm. See the guidelines and registration form in this newsletter. If you are selling, please register early and send your forms to Dick Snow. We are fortunate to have the professional services of Dick Snow and Phil Bright. It is a help to them to receive the registrations ahead of time, and will make our auction run smoothly. Please send auction registration to arrive by Nov. 13; that means you should mail it by Nov. 9.

I will need the help of 4 or 5 member to tag items, move items, etc. This is a good way to examine the items! If you can help, please call or email me. I'm sure we will have another successful and enjoyable auction!

Ed Karolakphone and fax: 919-383-4233 - email: EKarolak@aol.com

**There are still a few openings for the workshops. Your best chance of getting in is to call Rob Zacardi at (910) 590-2340 or wait until the last minute and see he or I at the Friday Oct 18<sup>th</sup> meeting. - Fred Ford**

## **Saturday, October 19th workshop. Finishing**

Jeff Jewitt will concentrate on the wide variety of finishes available, with particular emphasis on shellac and varnish. Various techniques for applying different types of finishes-oil based, water based, shellac, and lacquer will be discussed. A particular focus will be on surface preparation prior to finishing. Jeff will also discuss solving some of the common finishing problems such as splotching. The presentation will include demonstrations of some of the popular finishes as well as some work on participant projects. Host: Rob Zacardi. (910) 590-2340.

## **Sunday, October 20<sup>th</sup> workshop. Spray Finishing.**

Jeff Jewitt will feature an overview of spray finishing techniques and equipment. Jeff will talk about picking the right type of equipment for your projects as well as how to use it. A point of interest will be a demonstration and discussion on how to set up the spray equipment as well as troubleshooting common spraying problems. Jeff will also discuss how to care for and maintain your spray equipment. In addition, Jeff will talk about construction of the spray booth featured in a past edition of Fine Woodworking. The workshop will feature hands-on work with spray equipment that Jeff will provide. Jeff will also have some equipment available for purchase. Both workshops will feature lots of hands-on activity as well as numerous demonstrations by Jeff. By the conclusion of the workshop, we will walk away with valuable information, tips, and ideas which will help each of us attain the beautiful finishes of the pros. Hosted by Rob Zacardi. Telephone (910) 590-2340.

## **Tuesday, December 10th meeting. Toys for Tots Show and Tell and Social.**

The December meeting is going to be a meeting and social. We want everyone to bring a spouse or friend. We are going to have coffee, soft drinks, and dessert. We will have some time to socialize, a brief business meeting, and a show and tell featuring the Toys for Tots donations. Everyone is also encouraged to bring items they have made to show to the members and guests. The Marine Corps will be there to receive the toys and to add a spot of color to our meeting. Hosted by chairperson of the Toys for Tots committee.

The Triangle Woodworkers Association is a non-profit educational corporation dedicated to teaching woodworking techniques through seminars, classes, and workshops; promoting woodworking education and community interest in woodworking and in general sharing a love for wood.

<b>TREASURER'S REPORT</b>	
Balance 9/1/02	\$4,651.72
Income	\$716.76
Expenses	\$149.60
Balance 9/30/02	\$5,218.88
Respectfully submitted, Noel Butzke Treasurer	

**PRESIDENT'S MESSAGE**

Greetings:

We had an interesting meeting last month with Alan Leland demonstrating the technique of turning Christmas tree ornaments on the lathe. Thanks Alan, you make beautiful ornaments.

The Toys for Tots program is underway under the direction of Hal Liberty. Hal has scheduled many work sessions in his shop so there will be lots of opportunity to participate. I've always enjoyed the fun and fellowship when I have participated.

Don't forget the finishing workshop with Jeff Jewitt on Oct. 19 and 20 and our regular meeting is on Friday Oct. 18. If you want to attend one or both days but haven't signed up yet check with Rob Zacardi for seat availability. The class is in my workshop, bring your own seat.

Mentor Program:

I have started another small project class on Mondays with 3 people attending. The schedule as shown in last month's newsletter is still valid but to date have received just a couple of responses.

Dave

**JUST FOR GRINS**

A mild mannered man was tired of his wife always bossing him around, so he decided to go to a psychiatrist.

The doctor told him he had to develop self esteem. The doctor gave him a booklet on assertive training. He read it on the way home. When he walked through the door and his wife came to greet him, he told her,

"From now on I'm the man of this home and my word is law. When I come home from work I want my dinner on the table. Now get upstairs and lay me some clothes on the bed because I'm going out with the boys tonight.

Then draw my bath. When I get out of the tub, guess who is going to dress me and comb my hair?"

"The undertaker." The wife replied.

## TWA Meeting Minutes for September 17, 2002

President, Dave Mackie, called the meeting to order at 7:00 PM at the Woodworking Shop. Visitors and new members were introduced then the board members elected at the August meeting were installed.

<u>POSITION</u>	<u>BOARD MEMBER</u>	<u>TERM</u>
President	Dave Mackie	one year
Vice President	Fred Ford	one year
Secretary	Kay Baker	two years
Treasurer	Noel Butzke	two years

### At Large Board Members:

Dick Courtney	three years
Robert Foss	three years
John Cramer	three years

Dave reminded the group that Jeff Jewett will be coming in October.

Fred Ford announced that Rob Zaccardi resigned as Chairperson for Toys for Tots, due to other pressing commitments, and Hal Liberty has agreed to take that position.

Dick Courtney asked that anyone who might be interested in a saw mill program to please call him at 481-1257.

Fred Ford introduced Alan Leland who demonstrated turning a very fine hollowed out Christmas tree ornament on a mini lathe.

Dave Mackie adjourned the meeting at 9:10 PM.

Submitted by Kay Baker, Secretary

## Library Tidbits

A Resource Reference manual is being developed for the library. If anyone would like to add their business card or flyer, or provide a good resource for us woodworkers, please give it to me and I'll add it to the manual. This is only for reference - not to be checked out, and can be easily spotted by its purple binder.

Sharing our love for wood,

Kay Baker

## Hardwood Store Visit

Twenty seven members and guest enjoyed a friendly and educational visit to the Hardwood Store in Gibsonville on Saturday, October 5th. We were welcomed by owner Hil Peel and two members of his staff. Our professional presenter was Ray Shepard, Sales and Procurement manager for Beard Hardwoods of Greensboro. We were treated to an hour and a half lesson on wood grading and related topics, and Ray was happy to answer all our questions. Hil provided refreshments and nine door prizes. It was an enjoyable and profitable visit. Now we are all professional wood graders...well, at least we have a much better understanding of how it is done. -Ed Karolak

## TWA Programs for 2003

This will be the third year for this program committee. 2001 and 2002 was a very successful year for programs, and we all hope you find 2003 even more entertaining and informative. Assisting me on the Program Committee will be Bob Gabor, Ed Karolak, Rob Zaccardi, Irene Joiner, Leon Harkins, and Jeff Leimberger. We are all set to make 2003 the best year yet.

You will see host names after each event. They are responsible for all aspects of the events. They act as hosts for guest speakers, accept reservations (with fees if any), write the descriptions below, write newsletter articles, etc. Please contact them if you want more details about their respective programs.

We are using the responses to the program survey as a guide; however, we are always open to new ideas. If you have a special interest or an idea for a program, please see me at the meeting or give me a call (469-9575).

The programs listed in this newsletter may have to be changed if, for some reason, the speaker becomes unavailable. Keep posted to the newsletter for updates and changes.

Submitted by Fred Ford, Chairman of the Program Committee September 4, 2002

# Photo Gallery

Last month's program featured Allen Leland turning a delicate Christmas ornament. The amount of detail was fascinating, as he demonstrated his technique for this project.

A number of club members attended a wood grading workshop at The Hardwood Store. There is quite a bit more to grading than "that looks good!"

## Toys For Tots Workshop Schedule

I do not have the list that indicates which members wish to have their own workshop. Since we have a large club, we can have more than one workshop on the same day. Please select dates that you desire, and provide a brief description of what the volunteers will be working on. Also, indicate how many volunteers that you can handle.

My new workshop is now available. I plan to have my shop available on the following dates: 10/19, 10/26, 11/2, 11/9, 11/16 and 11/23.

My workshop is also available during the week. If there is anyone who wants to make toys or prepare parts, let me know. I plan to make biplanes. However, I am also looking at a possibly building a wooden truck. I have plenty of materials so if any one wants to use my workshop to create their own toys, please feel welcome.

I will provide directions and a map. I will be having other groups (non-TWA) working in these workshops. I would like TWA members available for tasks that for more experienced wood workers. At this time, we do not plan to have a workshop at Hoe Depot. This can be discussed at the next meeting. Hal

If you plan to attend one of my workshops, or would be willing to volunteer your shop, contact me at: **hal\_liberty@hotmail.com**

## **2002 Auction Rules and Guidelines**

The auction will be at Woodworking Shop, 3141 Capital Blvd., 0.9 mile north of the Beltline, Exit 11, with set-up starting at 6:00 pm, on Nov. 19.

The auction will be conducted by Phil Bright, a licensed professional auctioneer, and by Dick Snow, a computer expert who will record the auction proceedings on his laptop computer. They have conducted many auctions and are very knowledgeable woodworkers. We are fortunate to have their services. With the help of Phil and Dick, we have formulated the following rules and guidelines:

1. Each item or lot must have a potential value of at least \$10 or more. Any number of items can be combined to make a box lot. You may not bid on your own items.
2. Each member or guest can submit up to ten (10) items or lots.
3. A reserve of \$35 or more can be placed on up to two (2) lots. (A reserve is the minimum sale price you will accept for that lot. This should be used only for higher value items.
4. All lots will be sold as is, so the potential buyer should examine the items prior to the auction.
5. All lots should have some relation to woodworking: tools, materials, books, finished craft or furniture items.
6. There will be no premium charged. (the full sale price will go to the seller)
7. The purpose of the auction is to provide an opportunity for neglected items to find new homes where they will be loved, cared for, and used. The sellers and buyers will get great satisfaction and tranquility in making this adoption possible.
8. Some items will sell for more than you expect, and some will sell for less than you expect. Best results are obtained by submitting many items and the law of averages will be on your side.
9. It is strongly recommended that you pre-register your "sell items". This will help Dick Snow to get the items into his computer. Items will be sold in the order they are registered. Phil Bright tells us that the early items sell better and bring a better price. A pre-registration form is included in this newsletter.
10. Send your pre-registration form to Dick Snow  
4222 ELG Road

Efland, NC, 27243

The pre-registration form should be received by Dick Snow by Nov. 13.

If you have questions or unique situations, call me, Ed Karolak, at 919-383-4233.

1. The time schedule at the auction site will be the following:

6-7 pm	Bring your pre-registered items and have them tagged. Last minute registration of any items.
7 pm	Registration closes.
6-7:30 pm	Time to examine the items
6-7:30 pm	Sign up for your bidding number. Bidding will be by number only.
7:30 pm	Brief business meeting.
7:45 pm (approximately)	Start of auction. If possible, try to pay for items purchased by check, but cash will be accepted.

## **2003 TWA Calendar of Events**

### **SAVE THIS!**

**Tuesday, January 21<sup>st</sup> meeting. Furniture Design.** Jim Kirkpatrick will give a program on Furniture Design. He will show and tell how he goes from a concept or idea to the finished project. His projects are unique, tasteful, graceful, and just plain beautiful. He is a long time member of and former officer of the Carolina Designer Craftsmen. Jim lives in Chapel Hill with his wife and children. Hosted by Ed Karloak. Telephone 383-4233

**Tuesday, February 18<sup>th</sup> meeting. Wood-Carving on Furniture.** Paul Rolfe. Is a TWA member and professional wood carver. Carved ornament adds so much to a piece of furniture. Unfortunately, when you walk into a furniture store today and look at the furniture that has "carving" on it, it will be a machine generated appliqué that has obviously been simply tacked on to the piece. Personally, I think that the piece of furniture would look nicer if they would have just left it off. Being a carver, I am probably too critical of these things because somebody must think that it's OK or the furniture stores would not be able to sell them. In this program, we will discuss the different ways to incorporate carving on furniture, what tools are required and, in most cases, how easy it can be. Paul Rolfe started wood carving as a hobby in 1974 while attending Appalachian State University. As a student, tools were hard to afford and hard to find. Starting out, Rolfe used pocketknives and X-Acto tools. While at the university, as a senior, Rolfe took two semesters of furniture design and construction from the Industrial Arts department. This is the only formal training that he has had. He graduated in 1980 with a Masters degree in chemistry. In 1982, Rolfe left his full time job as a Research Scientist at Burroughs Wellcome to look after his first of two daughters and to start a woodworking/woodcarving business. Since that time Rolfe has produced hundreds and hundreds of mostly commissioned pieces. Working under the name of Raleigh Carving Company, he has produced models for industry, carved signs, company logos, church furniture and sculptures, reproductions, realistic portraits in wood, mantels, carousel horses,..... the list could go on and on. For the last twenty years, he has shown and demonstrated his work in the Village of Yesteryear at the North Carolina State Fair. Rolfe has successfully competed in many woodcarving competitions and has occasionally been invited to judge some as well. He is currently working with area woodcarving clubs to organize a woodcarving competition to be held at Klingspor's Woodworking Shop on February 8, 2003. Rolfe started working at the Woodworking Shop when it opened in 1999 and is now the store manager. Hosted By Leon Harkins.

**Tuesday, March 18<sup>th</sup> meeting Router Techniques and Jigs** Hal Brown ,a TWA member, retired from Rex Hospital as the Director of Cardio and Pulmonary Services after a twenty five year career in the medical field. He started his woodworking as a child in bible school. He turned professional in 1995, when he retired from the medical field. Working on commission jobs, Hal turns out everything from custom kitchen cabinets to special furniture pieces. At this meeting, Hal will explain, the basics of a router, the bits to use, and how to use them. He will also share with us how he makes some items used in his profession. Making things from simple rabbit cuts the raised panel doors will be explained. Router fences and jigs will be discussed. Learn some new tricks to do with your router. The fence , the most important accessory for the router, will be covered in some detail. Learn from a master what to look for in a fence. The router is probably the most versatile tool in your workshop. Come and learn how you can improve your use of your router. Hosted by Fred Ford. Telephone 469-9575

**Tuesday, April 15<sup>th</sup> meeting. Mortise & tenon, and Dovetail joints.** ; Michael Joerling is a professional furniture maker from Chapel Hill and becoming somewhat of a regular at TWA meetings. He has operated his own studio near his home since 1984. He creates both commissioned and gallery pieces that are sold and exhibited across the nation. Besides creating beautiful objects in wood, Michael has taught woodworking classes over the last several years and is currently teaching classes at his studio. Michael will talk about and demonstrate the use of dovetail and mortise tenon joinery. This discussion will touch on the proper use of joints to avoid problems with wood movement. Michael cuts his dovetails by hand and will show us how he does it! He will also show us how he lays out M&T joints to be cut by hand and talk about how he actually does it these days. Hosted by Jeff Leimberger

**Tuesday, May 20<sup>th</sup> meeting. Table Saw Jigs.** Bob Gabor, a TWA member known by just about all the members, will be showing us his Jigs that can be used to improve the usefulness of your table saw. Bob has hosted TWA workshops in his 20X40 foot workshop for as long as I can remember. I have visited his workshop many times and have yet to come away without a new idea for my shop. You are going to be impressed with the quality of the jigs Bob makes. After you have seen his jigs you will not be surprised to learn that he also makes the highest quality furniture that can be found. Bob will be showing table saw jigs to make accurate and clean crosscuts, get a straight board out of a bent one, cut miters for excellent picture frames, make box joints with ease, and more. Hosted by Fred Ford. Telephone 469-9575

**Tuesday, June 17<sup>th</sup> meeting. Windsor Chair Construction.** Dan O'Sullivan, an expert craftsman and accomplished Windsor chair maker, will do a show and tell program on the intricacies of Windsor chair building. He will talk about lay out, proper angles and dimensions, and bending and turning the chair

## 2003 TWA Calendar of Events (cont'd)

parts. He is available to give small group classes in his shop in Durham. Dan also is a gunsmith, builds furniture, and restores old cars. Hosted by Ed Karolak. Telephone 383-4233

**Tuesday, July 15<sup>th</sup> meeting. Wood Selection for Projects and Identification of wood.** Hill Peel, owner of The Hardwood Store in Gibsonville, NC, is our guest speaker for July and will go into depth on the selection of wood for that special (or not so special) project. This is not another presentation on lumber grading. Instead, it will focus on such things as how to select a board for best stability, how to look at a rough cut board and get a feel for how it will look after it is dressed, species selection versus machineability... and much more. Hill has been in the hardwood lumber business for many years and is great at offering easy to understand advice. This program will be useful to all. Plan to attend. Hosted by Bob Gabor 542-5951.

**Friday, August 15<sup>th</sup> meeting** Kelly Mehler makes beautiful custom furniture in Berea, Ky. He has written articles for Fine Woodworking, American Woodworker and Wood and is the author of Table Saw Techniques. He stars in two Taunton Press videos: Building A Shaker Table and Mastering Your Table Saw. Kelly lectures throughout America and has taught at Marc Adam's school. Kelly has developed a reputation as an accomplished instructor and he will present two workshops over the weekend. His presentation will cover his years as a furniture maker and touch on the highlights of his weekend seminars. Hosted by Jeff Leimberger 489-5195

**Saturday, August 16<sup>th</sup> workshop.** Kelly will present "All Things Table saw" during his Saturday seminar. He will present jigs and techniques that he uses in furniture construction involving this workshop workhorse. Why buy the book when you can experience it first-hand! Hosted by Jeff Leimberger 489-5195

**Sunday August 17<sup>th</sup> workshop** Kelly will talk about the steps he takes during carcass construction, from wood selection, to design, to joinery, to glue-up. He will use a chest of drawers for demonstration purposes. If you can build a carcass efficiently and well, most furniture making becomes much easier. Hosted by Jeff Leimberger 489-5195

**Tuesday, September 16<sup>th</sup> meeting. Lathe Set-up and Turning.** Dave Mackie will be presenting. Dave is the President of TWA, and has a great sense of humor. He started doing woodwork as a pre-teenager, mostly scroll saw work with a hand scroll saw (probably before electricity). He continued woodworking as a hobby throughout his adult life and has included house building and remodeling among his accomplishments. Upon his retirement, Dave discovered the electrical outlet and decided to buy all the power tools he ever wanted and build a nice shop. I can report in Dave's own words that he "Did this". Dave's activities now include: making furniture, cabinets, toys, model boats, whalebones, carving, woodturning and mentoring. He enjoys attending classes at the John Campbell and Penland craft schools. I have been told that I should feel free to exaggerate Dave's superb skill and vast knowledge but to downplay his ability to make mistakes. If I remember correctly, his mistakes during mentoring classes were called, "learning experiences" for those of us taking the class. I am also instructed to show that Dave has humility even-though, he may be an extraordinary person. Dave will be demonstrating basic spindle turning techniques by making a weed pot. A weed pot is a small flower vase designed to hold dry arrangements. Hosted by Irene Joiner.

**Tuesday, October 21<sup>st</sup> meeting.** Band Saw tune up, blade selection and re-sawing. Bruce Wrenn, longtime member of TWA will present a workshop on setting up, tuning, and using one of the most valuable tools in the workshop, the band saw. Many professional woodworkers, if given a choice, would pick the band saw as the tool they would most like to have in the shop. Bruce will show us how to take full advantage of this tool by demonstrating the correct way to tune it. In addition, he will talk about different jigs that can be built to take advantage of the saws full capability as well as many other issues such as blade selection. Hosted by Rob Zaccardi. Telephone (910) 590-2340

**Tuesday, November 18<sup>th</sup> meeting. Annual Auction.** Phil Bright, a licensed professional auctioneer, and Dick Snow, a computer expert who will coordinate the auction on his laptop, will present the third annual auction at our November meeting. They have conducted many auctions and are very knowledgeable woodworkers. This is the time to not only get rid of all those tools that have been sitting around in your shop for years that you know you will never use, but also pick up a little money at the same time. Also, this is a chance to pick up someone else's treasure. As they say one man's trash (tool) is another man's treasure (tool). Hosted by Ed Karolak. Telephone 383-4233

**Tuesday, December 9<sup>th</sup> meeting. Toys for Tots Show and Tell and Social.** The December meeting is going to be a meeting and social. We want everyone to bring a spouse or friend. We are going to have coffee, soft drinks, and dessert. We will have some time to socialize, a brief business meeting, and a show and tell featuring the Toys for Tots donations. Everyone is also encouraged to bring items they have made to show to the members and guests. The Marine Corps will be there to receive the toys and to add a spot of color to our meeting. Hosted by Hal Liberty telephone 787-7603
