

NOTE SPECIAL DATE!

FRIDAY October 21, 2005 7:30 PM
The Woodworking Shop
3141 Capital Blvd

If you would like the opportunity to just visit with some fellow club members, let 's meet at Buffalo Brother 's Pizza and Wings at 6:00 PM! Located within easy walking distance on the opposite side of the parking lot from the Woodworking Shop!

TWA meeting Annual Auction November 15th

Our annual auction is just a little ways away - November 15th. Get your neglected treasures ready to find new homes where they will be loved and used. The auction will be at Woodworking Shop, 3141 Capital Blvd., 0.9 mile north of the Beltline. Exit 11. with set-up starting at 6:00 pm, on Nov. 16, 2004.

Please take some time to review the auction rules. In order to make the auction fair for all club members, and to ensure we can conclude the meeting in a timely fashion, we do limit the number of lots, and require pre-registration of all lots. This rule will be enforced! Let's make the evening fun for ALL of us! Don't procrastinate - register NOW!

The auction will be conducted by Phil Bright, a retired professional auctioneer, and by Dick Snow, a computer expert who will record the auction proceedings on his laptop computer. They have conducted many auctions and are very knowledgeable woodworkers. We are fortunate to have their services.

We will also require the help of a couple of members the night of the auction to help arrange, "hold up" and hand out items that have sold. Let Ed know if you will be willing to help. (Remember - that is a great excuse to get a first hand, up close look at everything being sold!)

Direct questions to Ed Karolak: 919-383-4233 or Ekarolak@aol.com.

This Month's Meeting: Frank Klausz—Featured Speaker Friday October 21st

Frank Klausz will give a presentation on his work, with an emphasis on how he uses hand tools in his shop. Frank will most likely give his famous demonstration on handcut dovetails, with minimal time spent on layout.

Frank Klausz is the owner and president of Frank's Cabinet Shop Inc. in Pluckemin, New Jersey. A European trained Master cabinet-maker, his shop specializes in fine furniture reproductions and custom architectural fixtures. Frank has published many articles in woodworking magazines and appeared in several videos that have showcased his skills. He is perhaps best known for his video "Dovetail a drawer with Frank Klausz".

Frank has given many teaching seminars around the country in recent years. He will give a Friday night presentation on his woodworking methods, focusing on use of hand tools in his shop, and a workshop on Saturday and Sunday. The workshop will be a two-day class on making a dovetailed jewelry box. Everyone should leave Sunday with a box of their own creation!

For more information on Frank, you can visit his website: www.frankklausz.com. Join us for what promises to be an enjoyable evening with a unique craftsman. Hosted by Jeff Leimberger.

Update – Frank Klausz Workshop October 22nd and 23rd

Frank Klausz will lead a group through the construction of a mahogany box made with the use of handcut dovetails.

As of right now there are 12 people (with checks in hand) signed up for Frank Klausz's workshop. Jeff will be able to add 3, first come, first served! Price for the two day workshop is \$75.

Directions and information about the workshop will be sent via email, or available at the October meeting. Contact Jeff Leimberger at leimb001@mc.duke.edu, or (919) 698-8927.

About the Triangle Woodworkers Association

The Triangle Woodworkers Association (TWA) is a nonprofit educational corporation. The TWA is dedicated to teaching woodworking techniques through seminars, classes, and workshops; participants are required to sign waivers absolving liability for TWA or its designated representatives. The TWA promotes woodworking education and community interest in woodworking and in general sharing a love for wood.

Thank You to Board Members

If you would take the opportunity the next time you see Bob Foss and Dick Courtney, please take a moment to thank them for their work on the Executive Board. Bob has served as Treasurer, and Dick has been one of the at large members, with responsibilities as needed. Among which seemed to include harassing me at both board and club meetings!

Taking their new spots on the board are Cecil Raynor, serving as Vice President, Mike Reddyhoff as an at large member, and President in waiting, Fred Ford. Fred will assume the Presidency once I complete filling in for the remainder of Hal Liberty's term. It is with the help of people like these that we have such a great club.

**Triangle Woodworker's Club
Meeting Minutes
The Woodworking Store
September 20, 2005**

Rick Cornell opened the meeting at 7:30.
Attendance: 55

New members:

1. **Chuck Spacek**, Wake Forest
2. **John Martin**, Durham
3. **John Zwadin** (?), Cary

Business:

1. **Pre-Meeting Dinner:** **Rick Cornell** announced that members could meet at Buffalo Brothers Restaurant (in the same parking lot at the Woodworking Store, within walking distance) before each meeting for dinner, at 6 pm. This will be ongoing.
2. **Veneer donation:** **Rick Cornell** announced that 4 lots of veneer had been donated to the club and that these lots would be given free by lottery at the end of the meeting.
3. **TWA Budget:** **Pete Caspar** distributed the budget for the upcoming FY. He made the point that revenues (dues) were down by 17%, while expenses (high-priced speakers for programs) were up 18%. **Pete** announced to the membership that changes were envisioned which may include an increase in membership fee and an increase in the fee for workshops to resolve this budget shortfall.
4. **Toys for Tots:** **Bill Anderson** made an announcement regarding a TFT workshop on Oct. 15 and also requested that any scroll sawyers be prepared at the next meeting to take some jigsaw puzzle boards to be cut into jigsaw pieces. Each board would have 9 pieces (4 scroll saw cuts). **Fred Ford** indicated that **Diane's** workshop had been completed and that additional participants were needed for upcoming workshops. **Fred** also indicated that **Diane** is doing something additional for the victims of Katrina and that those interested in participating in this should contact her.
5. **Estate Sale.** **Paul** announced that **Ed Hobbs** is holding an estate sale to sell the antique tool collection of a MWTCA member. This will begin at 8 pm on September 24 at **Ed Hobbs's** farm. Details are in the previous newsletter.

Program: Shaker Box Making

Ron Johnson presented a program on making a Shaker oval box from start to finish. Ron was taught by the pre-eminent Shaker Box maker, John Wilson of Michigan who has revived this art. Wilson operates a website (<http://www.ShakerOvalBox.com>) at which much pertinent free information can be obtained, including a 14 page manual of box making. Wilson also sells dimensioned wood and hardware for boxmaking at very reasonable prices.

The tools for boxmaking are simple to procure or to

make. Ron had set up a Coleman stove heater, a copper water bath for soaking strips of wood, various bending forms (oval blocks of wood in the form of each size of Shaker box), a belt sander mounted on its side for shaping box tops and bottoms or on its back for feathering box side strips, a nailing anvil (simply a 1 1/2" pipe fixed to a wooden base with U-bolts) to clinch the copper nails, and a drill mounted on its side for pre-drilling nail holes in the sides of the boxes for fixing the tops and bottoms. Additional items included templates for drawing the finger patterns for various boxes, oval patterns for each box size, small copper nails, round tapered toothpicks.

Veneers (about 1/16" thick) can be obtained from Wilson. These are split so that the wood will not tear or splinter when bent. A set of veneers sufficient to make 5 boxes costs about \$16. A box consists of one wide band for the box side, a narrow band for the box top, and two pieces (about 3/16" thick) for the top and bottom of the box.

An abbreviated set of steps to make a box are:

1. Mark and cut the fingers on the two strips using a bandsaw
2. Bevel the edges of the finger faces (aesthetics, mainly) with a box cutter.
3. Feather the square end of each band on the belt sander so that the overlap when assembled is gradual.
4. Soak the side band 5-6 minutes, and then bend it around a solid form by hand.
5. Mark a reference pencil mark across the overlapped ends. Remove the band from the form and reset the band ends so that the pencil mark is aligned.
6. Nail the side band together using the anvil, and copper tacks. Place two nails on each finger and 4 nails across the width of the band at the base of the fingers.
7. Place two "driers" (oval shaped, 5-10" tapered pieces of wood) to hold the bottom in shape while it dries. The tapered edge of the driers helps with pressure-fitting into the top and bottom.
8. Repeat this process with the top band, but using the assembled bottom band as the form. Make sure that you orient the direction and the beveled edge of the top band fingers in the right direction! The band may have to be sanded a bit on the inside after assembly for a good fit.
9. Using the assembled top and bottom bands as patterns, cut and shape the box top and bottom pieces of wood. Cut out the oval shapes on the bandsaw, leaving a fat margin all around. Then belt sand the edges to give a slight taper all around and to fit tightly in either the top or bottom band.
10. Pressure fit the tops and bottom into the appropriate band. Pre-drill 1/16" holes around the edges of each (at least six holes) and tap in toothpick pegs. Cut and sand these smooth.
11. Gaps in the fitting of the band and the top or bottom can be filled with glue and then sanding dust

Respectfully submitted,
Bill Anderson, Secretary

Toys for Tots 2005 Update

We have completed the first two of our workshops and they were both a big success. Thanks to the participants and our gracious host Sue and Diane Eckard. Below are the participants as I signed them up. I understand there were some additional members shanghaied or stowed away. If you are one of them please call so I can get my list complete

Workshop Number One: Mike Payst, Cecil Raynor, Merele Marxen, Don Frankfarther, Ken Sampson, Pete Kasper, Dick Courtney

Workshop Number Two: Don Frankfarther, Jim Morrison, Fred Allen, Wilson Lamb, Pete Hodges, Fred Ford, Jimmy Burns, Dick Courtney

We still have four workshops and we can use some more store always. If you can help out please give me a call and I will give you a first class ticket and you will not have to stow away.

Remaining Workshops are:

Bill Anderson in Chapel Hill -- Oct 15th
Dave Mackie SW Raleigh -- Oct 22nd and Nov 19th
Home Depot N Raleigh -- Nov 5th.

All workshops are on Saturdays and run from 9 AM until 4 PM except Bill's which is AM until 9 PM

Bill Anderson's workshop is next and we can use painters. You don't have to be an artist. You will be filling in colors in rather large puzzles. Bring a non woodworking friend. Bill does not expect people to stay for the entire time. Come by and just paint one puzzle. It will mean something special to a special child.

Fred Ford, Chairman Toys for Tots Committee
469-9575

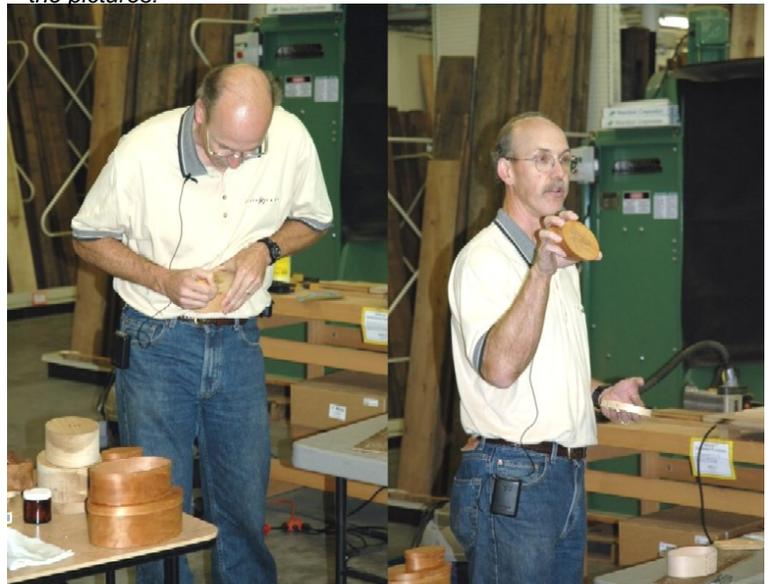

President's Corner!

As you can see this month's newsletter is full of club events. I spoke with the editor, who agreed I could get away with a short column this month, bless his soul! Anyway, this starts the beginning of our "holiday season" at TWA. November will be our tool auction, and to add a little more pressure to all of you working on your toys for the Toy's For Tots donation, the meeting to turn those in is about 10 weeks away! Don't know about you, but I am beginning to feel the first pangs of pressure. Looking forward to this month's meeting, and hopefully visiting with some of you at Buffalo Brothers before hand. *Rick Cornell*

Attention Scroll Sawyers (or fine-bladed band sawyers)!

At the next meeting (October 18), as part of our Toys for Tots program, Bill Anderson will be bringing in painted jigsaw puzzle boards to be cut into pieces. These puzzles will have 9 pieces, therefore only 4 cuts will be made for each board. Bill will provide a pattern for the jigsaw cuts. Please take as many of these as you can deal with, then return them at the following meeting (November 15). Bill's goal for Toys for Tots is to make 100 puzzles. Please commit to cutting a dozen or so puzzles each. Contact Bill at 932-6050 (nights) or 541-1586 (during the day) for details or special arrangements.

Candid Shots from September's Shaker Box program and workshop presented by Ron Johnson.. Thanks to Ron and Charles for the pictures!

2005 Auction Rules and Guidelines

The auction will be at Woodworking Shop, 3141 Capital Blvd., 0.9 mile north of the Beltline. Exit 11. with set-up starting at **6:00 pm**, on Nov. 15, 2004.

The auction will be conducted by Phil Bright, a retired professional auctioneer, and by Dick Snow. a computer expert who will record the auction proceedings on his laptop computer. They have conducted many auctions and are very knowledgeable woodworkers. We are fortunate to have their services. With the help of Phil and Dick. we have formulated the following rules and guidelines:

1. Each item or lot must have a potential value of at least \$10 or more. Any number of items can be combined to make a box lot. You may not bid on your own items.
2. Each member can submit up to eight (8) items or lots.
3. A minimum bid (reserve) of \$35 or more can be placed on up to two (2) lots. (A reserve is the minimum sale price you will accept for that lot.) This should be used only for higher value items that are expected to sell for at least \$35.
4. All lots will be sold as is. so the potential buyer should examine the items prior to the auction.
5. All lots should have some relation to woodworking: tools, materials, books, finished craft **or** furniture items.
6. There will be no premium charged, (the full sale price will go to the seller)
7. To make the auction manageable, there is a limit of 80 lots. If your registration does not make the cut, you will be notified to NOT bring your items.
8. All items must be pro-registered with Dick Snow by November 8th This will help you in your planning, and will allow Dick to have everything in his computer and ready to go at the auc-tion. Items will be numbered and sold in the order which they are received by Dick. Phil tells us that early items sell better and bring a better price.
9. Only current members of TWA are permitted to participate (buy or sell) in the auc-tion.
10. Send your pre-registration form to Dick Snow (see form for details). It must be in his hands by November 8th.
11. All auction items **MUST BE PRE-REGISTERED!** We use a computer generated inventory list that is printed prior to the meeting. We are unable to add items to it. Please help make this an enjoyable experience for all!
12. If you have questions , call me, Ed Karolak, at 919-383-4233. 1. The time sched-ule at the auction site will be the following:

- | | |
|-------------------------|--|
| 6-7 pm | Bring your pre-registered items and have them tagged. UN-REGISTERED ITEMS |
| | WILL NOT BE ACCEPTED AT THE AUCTION! |
| 6-7:30 pm | Time to examine the items |
| 6-7:30 pm | Sign up for your bidding number. Bidding will be by number only. |
| 7:30 pm | Brief business meeting. |
| 7:45 pm (approximately) | Start of auction. |

If possible, try to pay for items purchased by check, however cash will be accepted, No Credit Cards.
