## UPCOMING PROGRAM

June 2010

Issue 6

**Next Meeting:**

### ***Dovetail Jigs***

***Tuesday*** June 15<sup>th</sup>, 2010 7:00 PM

*The Woodworking Shop  
3141 Capital Boulevard  
Raleigh, NC*

Several members meet at 6:00pm Buffalo Brothers Pizza & Wings for dinner prior to the meeting.

## JUNE PROGRAM

***Tuesday***

June 15<sup>th</sup>, 2010

**Subject:** Dovetail Jigs (Leigh vs. Porter Cable)

**Speaker:** Mike Reddyhoff & Bruce Wrenn

Dovetail joinery is one of the most popular, aesthetically pleasing and strongest woodworking joints. For those not up to hand cutting these joints, there are many store-bought jigs that do a first class job. At the June meeting, two of those will be demonstrated. TWA president Mike Reddyhoff will demonstrate the Leigh jig and TWA member, gifted speaker and practiced educator Bruce Wrenn will demonstrate the Porter Cable jig. Come join us for the "battle of the jigs..."

**Host:** *Jim Kroeger*

***Friday***

July 16<sup>th</sup>, 2010

**Subject:** *Engineering a table with drawers*

**Speaker:** *Will Neptune*

Will Neptune former instructor at the North Bennet St School in Boston, will be our presenter in July. Friday July 16<sup>th</sup>.

We would like the membership to take advantage of his workshop on Saturday & Sunday, the 17<sup>th</sup> & 18<sup>th</sup>, at Mark Kegler's commercial shop in Raleigh.

We will learn how to make a simple side table frame that can be adapted to many styles. Will's article in Fine Wood Working (May/June 98, #130) has a description of our intended workshop.

We will learn about such items as a kicker, doublers, and runners. How to assemble them, connect them together, and to the sides, back, and legs.

**Host:** *Ed Mastin*

### ***MEMBERSHIP***

If you see a colored dot on a name tag it indicates that the person is a new member, be sure to say hello and welcome them to our club.

We have two new members: *Chuck Arnold* of Apex & *Roger Holland*, of Fuquay Varina  
New members can pick up their badges at the library desk.

**Membership Chairman:** *Kay Baker*

# ABOUT THE TRIANGLE WOODWORKERS ASSOCIATION

The Triangle Woodworkers Association (TWA) is a nonprofit educational corporation. The TWA is dedicated to teaching woodworking techniques through seminars, classes, and workshops; participants are required to sign waivers absolving liability for TWA or its designated representatives. The TWA promotes woodworking education and community interest in woodworking and in general sharing a love for wood.

## Club Officers and Committee Chairmen

### Executive Board

- President:** Mike Reddyhoff, (919) 676-9180  
miker@nc.rr.com
- Vice President:** Terry Tenhouse, (919) 545-9862  
ttenhouse@gmail.com
- Secretary:** Bill Anderson, (919) 932-6050  
willardanderson@bellsouth.net
- Treasurer:** Hugh Fish (919) 467-5696  
hughpatfish@yahoo.com
- Members at Large:** Larry Bradburry, Alan Capmbell,  
Larry Hendrick

### Committee Chairman

# BY THE NUMBERS

## Treasurer's Report

|                         |            |
|-------------------------|------------|
| Beginning Bank Balance: | \$8,351.23 |
| Income:                 | \$91.50    |
| Expense:                | \$781.17   |
| Ending Bank Balance:    | \$7,661.56 |

Note that these figures, as usual, exclude the petty cash fund, as well as the other "slush" funds.

## THE PRESIDENTS CORNER

I think we all enjoyed Jay Speetjens' demonstration of vacuum veneering at last month's meeting. He was a very personable sort of chap with a lot of good information on selection of veneers and substrates and construction of forms. Terry and Bob are working to arrange a veneering workshop (with our speaker). We expect it to prove very popular.

This year's NC Woodworking Showcase will be on Saturday September 11 at Klingspor's Woodworking Shop. Discussions on organization are under way. This event is co-sponsored by Klingspor, TWA, and ncwoodworker.net. Allan Campbell is our TWA point man. Volunteers to help with registration, setting up exhibits and a few other needed items are needed. If you can give an hour or two please let Allan know.

A notable absence from last year's show was entries in the Novice class. I know we have some members who regard themselves as novices and I want to encourage those people to think seriously about making something for entry. Winning a prize is not what it's all about – but you might indeed win – it's the fact that you have shown your work and received the acclamation of your peers. We need a lot of entries. As a matter of interest, last year there was only one entry in the Youth category so he took 1st, 2nd and 3rd prizes. They were well deserved but it is better to have some competition. Entry forms will be available soon.

Most of you will remember the disclaimer notice that we all sign when we attend a workshop. Such a notice is necessary as protection for TWA and the owner of the host shop but for some time it has been felt that our standard document did not reflect current thinking. So a team of thinkers has written a new legal disclaimer which has been incorporated in TWA Standard Practices Manual. This document will be used for the next work

shop which will be with Will Neptune at Mark Keglers' shop. If anyone would like a copy of the disclaimer please ask me or any board member. I must thank Bill Anderson, Allan Campbell and Larry Bradbury for devoting their time to this undertaking.

Every woodworker likes dovetails but most of us don't like the effort of hand cutting them. That's why the Almighty made routers and dovetail jigs. At our next meeting we shall be demonstrating the two best known dovetail jigs.

I hope to see you all there.

**Mike Reddyhoff: President**

# MEETING MINUTES

MAY 2010

*The meeting came to order at approximately 7 pm with Mike Reddyhoff presiding.*

*Mike welcomed 3 guests to the meeting and invited them to join our club. No new members were present.*

## **Business:**

1. The *NC State Craft* center would like to make items that would be helpful to the people of Haiti and have asked for project ideas. If you have a project idea that maybe helpful please send it to Mike so it can be passed on the Craft center

2. The *NC Woodworkers Show Case* has been scheduled for September 11. There is still plenty of time to get you projects ready for the show. Mike is looking for volunteers to help with the show, if you did not signup at the meeting please contact Mike or Alan Campbell if you will be able to help. Mike also noted that there may be an area set aside where members could sell their crafts.

## **Program:**

The quest speaker for the evening was Jay Speetjens. Jay is an accomplished furniture maker and is a member of the Piedmont Japanese Carpentry Club. Accompanying Jay was fellow furniture maker and President of the Japanese Carpentry Club, Phil Fuentes. Jay demonstrated the vacuum equipment needed to glue veneers to flat and curved substrates. He also discusses the different materials that can be used as substrates and the types of backing that are available on the veneers... As always the subject of glues came up and yellow carpenters glue was noted as the glue of choose for most applications. The cost of the vacuum equipment will not be for the faint of heart but doing so could add to the beauty of any project you had in mind.

**Respectfully submitted,**

*Joe Gorman for Bill Anderson, Secretary*

## DON'T HIDE YOUR TALENTS UNDER A BUCKET....

### *Membership Renewal Time is Here!*

Starting at our June meeting please bring your check book to pay your renewal fee. With 207 members it would be very helpful to me if as many members as possible renew in June rather than waiting until July.

If you receive the news letter by email the fee is \$35.00  
If you receive a hard copy newsletter the fee is \$40.00.  
If your spouse is a member add \$1.00.

The expiration date for the year is July 31<sup>st</sup>.  
New badges can be picked up at the following months meeting.

**Thanks for your support!**

Membership Chairman: **Kay Baker**

*Candids from the  
May meeting...*

## Offerings.....

Fan Back Windsor Chair.

Oct 24-31

Construct a fan back Windsor chair entirely with hand tools while honing tool skills and learning joinery techniques. Split a log, shape the crest and spindles with drawknives and spokeshaves, hollow the seat using inshaves and travishers, and assemble the chair using hand drills. This workshop is conducted at John C. Campbell Folk School, Brasstown, NC. (<http://www.folkschool.org>)

TWA News

### Roy Underhill's Woodwright School

Check out the schedule for this new addition to woodworking in the Triangle (<http://www.woodwrightschool.com>). Many great things will be happening here. On Wednesday nights there will be a "seminar" series which will be both hands on and demonstration, on focused woodworking topics. This will be a great opportunity to come and see the school, possibly meet Roy, and get some great handtool woodworking exposure. I will be assisting in many of these sessions, to my great delight, so come on over!

4

### Shakori Hills Grassroots Festival

I will be set up with my Ruobo workbench and demonstrating handtool woodworking at the Shakori Hills Grassroots Festival in the Fall (October 7-10). I am generally located near the food court. Come by my booth to visit and spend some time! I am happy to share stores and to answer questions.

<http://www.ibiblio.org/twa/>

Edwards Mountain Woodworks offers you the opportunity to learn specific handtool woodworking skills and techniques in a very focused but relaxed setting.

Whether you want to learn how to use handplanes, how to cut precise joinery by hand, or you just want to learn the ins and outs of handtools, there is something here for you.

Classes are limited to a maximum of 3 people and generally are intensive exercises on a topic, lasting one or two days from 9 am to 5 pm. Each student has their own workbench. A tool list and a class manual accompany each class. Generally, all tools and materials are supplied, though there may be an additional materials fee for some classes. Lunch is provided each day. Workshop prices are \$90 per day with a \$15 basic materials fee. Project oriented workshop have a materials fee that reflects the cost of the lumber and hardware.

# HANDTOOL WOODWORKING WORKSHOPS

#### Sharpening and Using Handsaws.

March 7  
June 12  
June 13

Hands on experience sharpening rip and cross cut handsaws. We will explore the anatomy and purposes of various types of handsaws, how to clean up and restore handsaws. We will look at various types of jigs and gauges useful for sharpening, and evaluate different types of sawsets. We will spend part of the day developing handsaw skills using rip, crosscut, dovetail, tenon, and Japanese saws.

#### Bench Plane Skills and Techniques.

April 3-4  
Aug 21-22

Explore the range and usefulness of bench planes for handtool woodworking. Hands-on experience will cover scrub, smooth, jack, try, fore and jointer planes and all types of block planes. Restoration, sharpening, tune up of planes is covered in detail.

#### Traditional Bench Jointer Plane.

May 8-9

Make a close-handed bench jointer plane using traditional tools such as mortise chisels, floats, and curved rasps. Students will fit a traditional tapered plane blade and use the plane to prepare edge joints for glue up.

#### Handcut Molding Techniques.

June 26-27

The focus of this workshop is to be able to make short lengths of moldings and apply decorative edging to workpieces using molding planes and specialty planes. These skills will allow you to reproduce any profiles you might desire, and to modify them to suit your purposes. We also work with scratchstock to achieve these ends as well.

#### Make a Pair of Rule Joint Planes

July 16-18

In this workshop you will make a pair of fenced rule joint planes to but the 5/8" rule joint for a drop leaf table. Very intense workshop, some experience in planemaking desired.

#### Gate Leg Table with Rule Joint Top

July 19-23

We will make a simple table with a gate leg using a knuckle joint and with a drop leaf top using a rule joint. This is a natural continuation (but not a pre-requisite) of the previous workshop. Students will learn to shape a rule joint with a matched pair of rule joint planes and also with appropriate hollows and rounds.

#### Classical Wallhung Shelf

August 2-7

We will construct a simple French cleat hung shelf, with a through dovetailed frame, handcut dadoes, tongue and groove backing set in hand cut rabbets. There will be a half blind dovetailed drawer below the shelf. We will use molding planes and scratch stock to apply decorative edges as well as making the crown molding. Some handcut dovetail experience would be very useful.

#### Miter Plane and Shooting Board

Sept 3-5

We will make a wooden miter plane based on one by the English firm of Routledge. The plane will have a low bed angle and a 10 degree skew on the blade. We will also make a shooting board for squaring up stock to use with this plane.

#### Traditional Toted Smoother.

Sept 10-12

Make a close-handed coffin-shaped smoothing plane using traditional tools such as mortise chisels, floats, and curved rasps. Students will fit a traditionally forged plane blade and use the plane to smooth a panel

#### Queen Anne Footstool

Sept 27-Oct 2

We will make a simple Queen Anne style footstool with hand cut pad feet. The stool will be made of mahogany with a polar upholstery frame. The legs will be cut with a turning saw, mallet and chisel, and back saw. Shaping will be with rasps and scrapers. The aprons will be hand rabbeted and molded and will be attached to the legs with mortise and tenon joinery. We will review other styles of cabriole legs (slipper, pad, trifold, Spanish foot, and ball and claw) and also review different styles of upholstery (traditional 18<sup>th</sup> century, and modern). Some experience with handcut mortise and tenon joinery needed.

#### Essential Sawyer's Tools

Oct 8-12

We will make a 4 foot tall wooden sawyer's vise for sharpening handsaws and also a traditional English saw bench (based on Christopher Schwarz's design). One day will be devoted to handsaw sharpening and to developing handsaw and skills.

### TWA 2010 Programs Now Available On-Line

The new program schedule is complete and has been added to the TWA Google calendar website. You can access this calendar on the twa home page at URL: <http://www.ibiblio.org/twa/>. This will open the calendar and you will have access to all the program, workshop, etc. information for the full calendar year. The Agenda tab at the top right of the calendar will give a more detailed and multiple month view. It is our intent to keep the calendar current, so it will provide a ready resource for all upcoming activities. To make this happen I will need your timely inputs for any and all calendar worthy items.

**Program Committee Chairman: Terry Tenhouse** [ttenhouse@gmail.com](mailto:ttenhouse@gmail.com)

### Mentors

The purpose of this program is to have a reference guide of whom to call when you need to "pick someone's brain", because *Rule #1 in woodworking: nobody has a monopoly on brains!* This list of people includes: contact information, projects the Mentors are comfortable offering advice about, and skills they would be able to help with.

### Mentors Wanted/Needed

The purpose of TWA is to provide a forum for woodworkers to gather, exchange information & further the art of woodworking. To this end, those more skilled woodworkers are encouraged to become a Mentor to provide knowledge to other members regarding areas of the Mentors skill, experience & knowledge. If you are interested in being a mentor, and willing to help a fellow woodworker discover answers to their questions, please contact Larry Bradbury, 919-518-6891 or [lbradbury12@yahoo.com](mailto:lbradbury12@yahoo.com)

**There in every memory  
See his love and care  
Strength and hands to count on  
Freely he does share  
Provider, toil so faithfully  
To make our dreams come true  
Give strong and tender discipline  
Though it is hard to do  
A Father is God's chosen one  
To lead the family  
And point it to His will for life  
Of love and harmony...**

"The most important thing a father can do for his children is to love their mother." - Theodore Hesburgh

"It doesn't matter who my father was; it matters who I remember he was." - Anne Sexton

"He didn't tell me how to live; he lived, and let me watch him do it." - Clarence Budington Kelland

It is not flesh and blood but the heart which makes us fathers and sons.  
~ Johann Schiller

When I was a boy of fourteen, my father was so ignorant I could hardly stand to have the old man around. But when I got to be twenty-one, I was astonished at how much he had learned in seven years. ~ Mark Twain, "Old Times on the Mississippi" Atlantic Monthly, 1874

A father carries pictures where his money used to be. ~ Author Unknown

Never raise your hand to your kids. It leaves your groin unprotected.  
~ Red Buttons

## TWA LIBRARY

Each member is allotted 3 items at a time. Checked out items are to be returned at the next meeting. There is a late fee of \$2.00 per item per month. We hope this will encourage timely returns so other members may benefit from the information available.

Monthly meetings have been recorded on video cassette and then transferred to DVD in the past. Most meetings are available -- some are still in the process.

Tom Durand has graciously donated a DVD recorder, all meetings will now be available quicker. Thank you, Tom! Sharing our love for wood will now be more efficient.

**Librarian: Kay Baker**

### DVD's Available for viewing

| Title                                       | Author                   | Subject     |
