Next Meeting:

Sharpening Techniques

Tuesday August 17th, 2010 7:00 PM

*The Woodworking Shop
3141 Capital Boulevard
Raleigh, NC*

Several members meet at 6:00pm Buffalo Brothers Pizza & Wings for dinner prior to the meeting.

Tuesday

August 17th, 2010

Subject: Sharpening Techniques
Speaker: Bruce Wrenn

SCARY SHARP a term that comes from a method of using sandpaper, yes sandpaper, to sharpen wood working tools. The meeting is at Klingspor's, a perfect place as they sell the sandpaper you will need for this method of sharpening.

How many ways are there to sharpen a tool? This may be more than you know, or want to know. But, here is one way that may solve all of your sharpening problems. *Well most.* Aside from being a good method, this is also cheaper than most others. We all like cheaper.

Bruce will describe the basics of Scary Sharp. I am sure that you will find a place in your sharpening repertory for this method.

WORKSHOP: Saturday, August 21st

At this workshop you will have the opportunity to learn the details of sandpaper sharpening and practice the skill. There is a limit of 10 attendees. Fee is \$30 plus a \$12 charge if you want to purchase a glass plate to start your new method.

There are only **three** openings remaining for the Workshop. *If you want to be a woodworker -- proper sharpening is a must.* Call or see me at the meeting if --the first three payments get the open slots.

The Workshop will be held at Klingspor's Woodworking Shop (our meeting place). Beginning at 9am and running till 4pm. Registered attendees will be provided with details of supplies you will need to bring along and the days agenda.

Host: Fred Ford

SEPTEMBER PROGRAM

Tuesday September 21st

Subject: A Sampling of Historic Workbenches & Workbench Accessories
Speaker: Brian Coe

Brian Coe, Director of Interpretation at Old Salem and period furnituremaker, will provide a detailed look at eight historic workbenches in the Old Salem collection.

Heavily influenced by the Germanic heritage of the Moravian craftsmen who settled Salem, these workbenches show the progression of workbench design and technology over a 100 year span from 1760 to 1860. While period furnituremakers and neander woodworkers tend to drool over such benches, they can still provide design tips and features that can be used in modern workshops as well.

Brian will also be sampling some historic workbench accessories that are still used today in fine woodworking. Examples of the miter jack, shooting board, bench hooks, *donkey's ear* (don't know what that is?? Come and find out!) and secondary bench vises for tasks as varied as carving and dovetailing will be shown and demonstrated. Please note, although router jigs and tailed tools might be mocked, no power tools will be harmed during this presentation.

Host:
Bill Anderson

ABOUT THE TRIANGLE WOODWORKERS ASSOCIATION

The Triangle Woodworkers Association (TWA) is a nonprofit educational corporation. The TWA is dedicated to teaching woodworking techniques through seminars, classes, and workshops; participants are required to sign waivers absolving liability for TWA or its designated representatives. The TWA promotes woodworking education and community interest in woodworking and in general sharing a love for wood.

THE PRESIDENTS CORNER

It is always a great pleasure to see a professional at work – no matter what the profession, be it a bricklayer, a carpenter or a waiter – and it was especially pleasing to see *Will Neptune* perform his mastery last month. His methods of measuring one piece against another and other ways to reduce cutting errors was most revealing and his sense of design and craftsmanship is quite masterful. We were most fortunate to be able to secure Will for the week end and our thanks go to Terry Tenhouse and Ed Mastin for arranging his visit. Thanks also to Mark Keglars for providing the workshop.

Workshops are truly value for money and should be taken advantage of by all members. Regardless of anyone's intentions to make a Windsor chair, a table or a cabinet in the near future the skills and techniques demonstrated are applicable to any project and are invaluable.

I was quite intrigued to see Bernie Bogdon's carvings of his year sticks – this is a very novel way of recording your grandchildren's progress. And I can attest to his remarks on the satisfaction to be obtained from relief carving. Last year I attended two of Leon Harkin's classes on relief carving - having never handled a carving chisel in my life and the results although not of Academy standard were not bad and the experience was very satisfying. I would recommend anyone.

As Fred Ford indicates elsewhere in the newsletter we are celebrating the *25th* year of TWA involvement with Toys for Tots. In spite of certain restrictions imposed by the new Federal regulations, we want to make this the best year yet in terms of output and quality. There will be plenty of opportunities to join in toy making workshops and you will be able to select your preferences at the next club meeting. Please respond generously with your time.

Speaking of the next club meeting we are pleased to have fellow member and frequent demonstrator Bruce Wrenn as our speaker on August 17th and although his subject is billed as sharpening edge tools with sandpaper I am quite sure we will receive advice and wisdom on several other topics.

This is an inexpensive and highly effective method of tool sharpening and you will not want to miss Bruce's demonstration.

I hope to see you all there.

Mike Reddyhoff: President

MEETING MINUTES

JULY 2010

Business:

1. A *group of carvers* meet at the Klingspor store on the second and fourth Sunday of the month at 3 PM. All are invited to come.

2. *Alan Cambell* is asking for volunteers to help out at the upcoming woodworkers show being held at the Klingspor store on September 11th. If you can help in any way please get in touch with him.

Announcements:

1. *Bernie Bogdon* shared a number of his wood carvings for our show and tell portion of the meeting. He explained the different types of carvings and some of the tools one would need to get started in the hobby. He had examples of a carving process from start to finish. He also displayed a few rather simple pieces that would be good for a beginner and some more elaborate work suitable for the advanced carver. I am sure that if you wanted addition information about carving he would be glad to provide it.

Program:

The featured speaker for the night was *Will Neptune* a former instructor at the Bennet St School in Boston. He has also written articles for Fine Woodworking magazine. Tonight's lecture on Table and Case Construction and this weekend workshop will be based on one of those articles. This evening Will demonstrated the basic joinery that is used in the construction of furniture and the methods used by the master in the making of those joints. The tips he presented this evening will allow you to make better looking joinery for your furniture projects and will also take some of the frustration out of making those joints.

Respectfully submitted,

Joe Gorman for Bill Anderson, Secretary

DON'T HIDE YOUR TALENTS UNDER A BUCKET...

MEMBERSHIP RENEWAL

Thank You to the members who have renewed.

I will be at my "desk" at 6:30 at the next meeting to collect renewals. Expiration date for the year is July 31st at which time our computer system will automatically drop anyone who has not renewed for 2011.

Newsletter by email \$35.00

Newsletter by hard copy \$40.00

Spouses \$ 1.00 additional

For member convenience checks may be mailed to me at:

610 Benfield Court, Garner, NC 27529

New members and those who have renewed can pick up their new badges and discount cards at this month's meeting.

Membership Chairman: Kay Baker

"101 Party Suggestions for those 'I've Finished a Project' Parties"

"\$10 Bed Rocks and Unicorns that Poop Rainbows"

"How to Murder Trees and Make Stuff With Their Flesh"

Fan Back Windsor Chair. Oct 24-31

Construct a fan back Windsor chair entirely with hand tools while honing tool skills and learning joinery techniques. Split a log, shape the crest and spindles with drawknives and spokeshaves, hollow the seat using inshaves and travishers, and assemble the chair using hand drills. This workshop is conducted at John C. Campbell Folk School, Brasstown, NC. (<http://www.folkschool.org>)

Roy Underhill's Woodwright School

Check out the schedule for this new addition to woodworking in the Triangle (<http://www.woodwrightschool.com>). Many great things will be happening here. On Wednesday nights there will be a "seminar" series which will be both hands on and demonstration, on focused woodworking topics. This will be a great opportunity to come and see the school, possibly meet Roy, and get some great handtool woodworking exposure. I will be assisting in many of these sessions, to my great delight, so come on over!

Shakori Hills Grassroots Festival

I will be set up with my Ruobo workbench and demonstrating handtool woodworking at the Shakori Hills Grassroots Festival in the Fall (October 7-10). I am generally located near the food court. Come by my booth to visit and spend some time! I am happy to share stores and to answer questions.

**Offerings.....**

Edwards Mountain Woodworks offers you the opportunity to learn specific handtool woodworking skills and techniques in a very focused but relaxed setting.

Whether you want to learn how to use handplanes, how to cut precise joinery by hand, or you just want to learn the ins and outs of handtools, there is something here for you.

Classes are limited to a maximum of 3 people and generally are intensive exercises on a topic, lasting one or two days from 9 am to 5 pm. Each student has their own workbench. A tool list and a class manual accompany each class. Generally, all tools and materials are supplied, though there may be an additional materials fee for some classes. Lunch is provided each day. Workshop prices are \$90 per day with a \$15 basic materials fee. Project oriented workshop have a materials fee that reflects the cost of the lumber and hardware.

**EDWARDS MOUNTAIN
WOODWORKS**

Fine handtool woodworking: creating and teaching in wood

Phone: 919.932.6050
email: bill@edwardsmountainwoodworks.com

Workshop Descriptions**Bench Plane Skills and Techniques.**

**April 3-4
Aug 21-22**

Explore the range and usefulness of bench planes for handtool woodworking. Hands-on experience will cover scrub, smooth, jack, try, fore and jointer planes and all types of block planes. Restoration, sharpening, tune up of planes is covered in detail.

Traditional Toted Smoother.

Sept 10-12

Make a close-handled coffin-shaped smoothing plane using traditional tools such as mortise chisels, floats, and curved rasps. Students will fit a traditionally forged plane blade and use the plane to smooth a panel

Classical Wallhung Shelf

August 2-7

We will construct a simple French cleat hung shelf, with a through dovetailed frame, handcut dadoes, tongue and groove backing set in hand cut rabbets. There will be a half blind dovetailed drawer below the shelf. We will use molding planes and scratch stock to apply decorative edges as well as making the crown molding. Some handcut dovetail experience would be very useful.

Queen Anne Footstool

Sept 27-Oct 2

We will make a simple Queen Anne style footstool with hand cut pad feet. The stool will be made of mahogany with a polar upholstery frame. The legs will be cut with a turning saw, mallet and chisel, and back saw. Shaping will be with rasps and scrapers. The aprons will be hand rabbeted and molded and will be attached to the legs with mortise and tenon joinery. We will review other styles of cabriole legs (slipper, pad, trified, Spanish foot, and ball and claw) and also review different styles of upholstery (traditional 18th century, and modern). Some experience with handcut mortise and tenon joinery needed.

Miter Plane and Shooting Board

Sept 3-5

We will make a wooden miter plane based on one by the English firm of Routledge. The plane will have a low bed angle and a 10 degree skew on the blade. We will also make a shooting board for squaring up stock to use with this plane.

Essential Sawyer's Tools

Oct 8-12

We will make a 4 foot tall wooden sawyer's vise for sharpening handsaws and also a traditional English saw bench (based on Christopher Schwarz's design). One day will be devoted to handsaw sharpening and to developing handsaw and skills.

TWA 2010 Programs Now Available On-Line

The new program schedule is complete and has been added to the TWA Google calendar website. You can access this calendar on the twa home page at URL: <http://www.ibiblio.org/twa/>. This will open the calendar and you will have access to all the program, workshop, etc. information for the full calendar year. The Agenda tab at the top right of the calendar will give a more detailed and multiple month view. It is our intent to keep the calendar current, so it will provide a ready resource for all upcoming activities. To make this happen I will need your timely inputs for any and all calendar worthy items.

Program Committee Chairman: Terry Tenhouse ttenhouse@gmail.com

Mentors

The purpose of this program is to have a reference guide of whom to call when you need to "pick someone's brain", because *Rule #1 in woodworking: nobody has a monopoly on brains!* This list of people includes: contact information, projects the Mentors are comfortable offering advice about, and skills they would be able to help with.

Mentors Wanted/Needed

The purpose of TWA is to provide a forum for woodworkers to gather, exchange information & further the art of woodworking. To this end, those more skilled woodworkers are encouraged to become a Mentor to provide knowledge to other members regarding areas of the Mentors skill, experience & knowledge. If you are interested in being a mentor, and willing to help a fellow woodworker discover answers to their questions, please contact Larry Bradbury, 919-518-6891 or lbradbury12@yahoo.com

TWA TOYS FOR TOTS

TWA News

6

<http://www.ibiblio.org/twa/>

I would like to thank *all* of you that have currently signed up to help with this year's program. If you have not had the opportunity to sign up yet - please call *Mike Reddyhoff* at 919-676-9180 or *me* at 919-469-9575. We will be more than happy to get you signed up for the workshop(s) of your choice.

We have many workshops scheduled thanks to efforts of Mike Reddyhoff. Below is a list of them so that you can be planning which ones you would like to attend. Some dates may alter but we shall keep everyone informed.

As I mentioned last month there are new regulations regarding the safety of toys produced in the USA. To help you through this situation a number of us have sifted through the existing information and have proposed the following rules for toys to be made this year for the Toys for Tots Program.

Respectfully Submitted: Fred Ford Toys for Tots Chariman

Proposed 2010 Workshop Dates

Aug 7	#1 Mark Keglers	Raleigh
Aug 9	#1 Larry Bradbury	Knightdale
Aug 11	#2 Larry Bradbury	Knightdale
Aug 14	#2 Mark Keglers	Raleigh
Aug 16	#3 Larry Bradbury	Knightdale
Aug 25	#4 Larry Bradbury	Knightdale

Nov 20	#4 Diane Philyaw	Creedmoor
Dec 4	#5 Diane Philyaw	Creedmoor
Dec 14	TUESDAY T4T Pickup	location TBD

TRIANGLE WOODWORKERS ASSOCIATION Consumer Product Safety Improvement Act Guidance July 2010

This document provides requirements for club members who participate in the various toy making projects to make toys to be donated to the Toys for Tots Program. It provides information on how to comply with the Consumer Product Safety Improvement Act and the related laws as best we can understand for now. The regulations pertaining to the law are still being drafted and will not be fully implemented until February 10th, 2011.

For 2010 toys donated must meet the following requirements.

- ** No finish or coloring of any kind can be applied to the toys. This includes paint, wax, stains, decals, tape, vegetable oil, etc. No means No.
- ** No small unattached parts or toys. All toys and unattached parts must not be able to fit through a toilet paper tube.
- ** We may use natural products such as wood or leather. Plywood may be used, but must be contained with no sides showing or accessible by a child.
- ** It is likely that we will be required to mark the toys for identification of TWA as the manufacturer. More detail to follow.

This law applies to all toys donated or sold. Any toy not in compliance will not be accepted for donation.

It is expected that many small companies will go out of business and donated toys will be far fewer next year. We can only hope that when the regulations are published they do not have the serious unintended consequences currently anticipated

Toymakers Alliance is trying to make some sense of all this. If you would like to help in the effort you can contact them at <http://www.handmadetoyalliance.org/>
