Next Meeting:

Gift of Giving

Tuesday December 13th, 2011 7:00 PM

The Preserve Club

1153 Smith Creek Way Wake Forest, NC

Thanks to the residents of the Preserve and Charles Buenzli, who arranged the schedule to fit us in. With this facility we will have adequate space to show all toys.

Tuesday

December 13th, 2011

Calling for ALL toys

Subject: Sharing of Love & Gift Giving

Speaker: Roy Underhill

Workshop: look for the 2012 schedule

Location: The Preserve Club House at 1153 Smith Creek Way, Wake Forest, NC 27587

Thanks to the residents of the Preserve and Charles Buenzli, who arranged the schedule to fit us in. With this facility we will have adequate space to show all toys.

Guest Speaker: Roy Underhill

Thanks also to Bill Anderson who has arranged Roy Underhill to be our guest speaker again this year.

Directions and agenda on page 5.

The call for help is very strong from those that are suffering the most because of our economic slow down. Please double down your efforts in the few weeks remaining and let's help as many children as we can. Just one added toy will make a difference.

Host: Fred Ford

Tuesday

January 17th, 2012

Subject: Carcass & Drawer Design

Speaker: Matt Hobbs

Workshop: Saturday January 21, 2012

We are starting 2012 off with a great program featuring Matt Hobbs, a professional woodworker based in Durham. Matt will do a presentation at our membership meeting and then a one day workshop.

Matt grew up in the furniture trade under his father, Ben Hobbs (recipient of the 2010 Cartouche Award from SAPFM). After completing graduate studies in early American decorative arts at Winterthur museum, Matt worked and taught furniture-making classes with Ben in their eastern NC shop. Since moving to Durham in 2004, Matt has operated a "bespoke" workshop where he makes custom furniture to the buyers specifications. He has made custom pieces for clients throughout the eastern US, for individuals, design professionals and businesses. His focus is on early American styles; however, he embraces exploring more modern designs.

Matt's focus for our program will be on traditional drawer design and construction, a subject that most of us have had issues with, at one time or another. For the program, Matt will draw upon historic examples of drawer construction to show a variety of construction methods, including a variety in examples he has made. He will also have various pieces of his work for our review.

For the Saturday workshop, Matt will show the process for fitting drawers, step by step. He will start with a chest carcass and go through the process of making and fitting a drawer for a given opening, including the blocking, runners, kickers and stops. Workshop participants will have the opportunity to make and fit individual drawers to the carcass.

For more information on Matt and his work, check-out his website at: matthewhobbsfurniture.com

Host: Terry Tenhouse

ABOUT THE TRIANGLE WOODWORKERS ASSOCIATION

TWA News...

2

www.trianglewoodworkers.com

The Triangle Woodworkers Association (TWA) is a nonprofit educational corporation. The TWA is dedicated to teaching woodworking techniques through seminars, classes, and workshops; participants are required to sign waivers absolving liability for TWA or its designated representatives. The TWA promotes woodworking education and community interest in woodworking and in general sharing a love for wood.

BY THE NUMBERS

Treasurer's Report

Beginning Bank Balance:	\$9,593.27
Income:	\$1,749.00
Expense:	\$3,723.28
Ending Bank Balance:	\$7,883.67

Note that these figures, as usual, exclude the petty cash fund, as well as the other "slush" funds.

Some notables: \$590.00 in the sharpener raffle & \$527.00 in Toys for Tots donations.

Submitted by: Hugh Fish

THE PRESIDENTS CORNER

In my last column I mentioned that Pete Bucki had submitted an entry into the Worksharp manufacturer's monthly contest and won some additional products to be raffled for the benefit of Toys for Tots. These items, including a Worksharp 3000 will be raffled off to benefit the Toys for Tots program. The details of the next raffle will be decided shortly and I expect them to begin in early 2012. The current raffle will take place at the December T4T fun meeting.

While on the subject of Toys for Tots, we are accepting donations for the program to continue. We informed everyone earlier of the rising cost to continue this worthy program. We are very concerned with our ability to continue if help is not received. Please consider what you can give to help keep this worthy project afloat in the future. If your company gives yearly donations to help with their tax breaks - please suggest they consider a donation to TWA to help us keep up the good work we do. If you know of any institution we can contact to solicit for a donation, please provide us with contact information and we will take it from there. Donations can be kept confidential if you like. Hugh Fish or any Board member will be happy to accept your gift.

At our last meeting I recognized Bruce Wrenn for his efforts in cutting out, sanding, routing and drilling an astounding 1200 VW bodies. By preparing them to various stages of completion, he has made the T4T workshops run much more smoothly.

Roger Philyaw has been diligently working on making our website more inviting and informative. He has asked me to remind everyone that the old website is being shut down as soon as we can get some information transferred to the new site and that the old site is not being updated. Please be sure you are checking only the new site for things concerning TWA like our calendar and newsletters. Also, from the new website, you can access our new Facebook page.

Chris Gouchnour gave us an informative presentation at our last meeting, describing his career and covering a wide variety of items in a question and answer session.

December will be our 2011 Toys for Tots finale. We will meet at the Preserve Club House at 1153 Smith Creek Way, Wake Forest, NC 27587 on December 13th at 7:00pm (6:00 for setup crew and 6:30 for those bringing toys or finger foods). This is gearing up to be another great event with Roy Underhill as our Guest Speaker, the Worksharp raffle drawing, and lots of toys delivered to the Marines. Please be sure to attend and bring your spouse or significant other to enjoy the festivities.

My last item for this month is that we are asking members to invite a guest you think would enjoy our club to visit and join. We aren't suggesting a hard sell, but if you know someone who might enjoy it, please invite them to a meeting. To that end, we will have flyers available for you to give to your prospective guests.

Hope to see many faces in December!

President: Allan Campbell

MEETING MINUTES

NOVEMBER 2011

The meeting was opened by our President, Allan Campbell. Allan welcomed visitors and encouraged them to join the club. This month provided 2 folks visiting.

Announcements:

- ☀ Pete Bucki reported that to date a total of 64 tickets have been sold for the Worksharp Raffle and tickets will remain on sale up to the time of the drawing at the Dec 13 meeting. He also reported that he has received a number of other Items from the Worksharp Company for his efforts' on their behalf at the Klingspore Extravaganza in Hickory. Pete has donated these Items to the club and the board will decide how they will be used to raise money for the toys for tots program.
- ☀ Kay is still looking for someone to help with the club library. Anyone who can help with the library, please contact Kay or Alan.
- ☀ Bruce Ren has cut out 1200 VW's bodies for the Dec 3 work shop at Klingspor.
- ☀ Fred reported that this year 1000 toy were made at Diane's Creedmore shop. He also attended at Toys for Tots meeting with the Marines and came away with the knowledge that are toys are in high demand by the organizations that distribute them.
- ☀ Raleigh Saw has Donated a number of table saw blades to the club for the benefit of the Toys For Tots program. The board will have to decide how these blades will best benefit the program.

“Love in action, what an incredible use of three words.”

MEETING MINUTES CONT.

Program:

Chris gave an excellent slide show presentation on his work and how he designs and executes his projects. He told us how his love of skate boarding gave him his start in business working for a skate board manufacture. I think one of the things I found most surprising is that he does not advertise at all. He gets all his work by word of mouth. Then again after seeing some of his work I can understand why. Chris has also written a number of articles for Fine Woodworking. If you missed the meeting a DVD of the meeting is available from our librarian Kay. It is well worth the time to see some of his work.

Respectfully submitted by: *Joe Gorman - secretary*

TWA is on Facebook

On our website www.trianglewoodworkers.com you can hit the link to “like” us on facebook or if you do not have a facebook page you can create one if you like. Or you can go to www.facebook.com and search for TWA and add us as a friend.

A Note from Our Webmaster & Newsletter Editor

Although we do not make many meeting because of Diane's current health problems, we do want you all to know that we appreciate the support you give to us and we hope that our contributions to the club with the web page and the newsletter help each of you.

We hope that you and your families have a very Merry and healthy Christmas and New Year.

Respectfully submitted by: *Roger & Diane Philyaw - Webmaster & Newsletter Editor*

MEMBERSHIP PAGE

Some things are just too large, bulky, and/or heavy to cart to our monthly meeting to show. *email Show and Tell.* I encourage all to send me photos of your item and a detailed explanation, whatever you would like to share.

Chris Gochnour *November 2011 workshop*

Chris Gochnour, a professional furniture maker, teacher and author from Utah spent the weekend with us on November 19/20/21. He talked about his working life and built his handsome heritage tool chest.

Workshop attendees

On Friday Chris presented a slide show of a representative sampling of his work including a very fine oval desk built for the Utah State Governor's office using wood from trees downed during a local tornado. It seems that Chris' wife volunteered his services for the job and he did not get paid for it though he did receive further commissions from the Governor's office on the strength of the desk.

Chris started woodworking making skate boards for his own use (he was a State finalist in the sport) and then invested \$15 in an advertisement offering an arts & crafts chair he had made. The lady who responded to the advertisement subsequently ordered several more pieces from Chris. He has not advertised since relying solely on referrals. He has broadened his exposure considerably by authoring numerous articles for Fine Woodworking magazine & by regular teaching at the Mark Adams School of Woodworking, and the Salt Lake City Institute.

Chris clearly has an extensive knowledge and affection for hand planes. He discussed the attributes of bevel up and bevel down blades and the advantages of different bevel angles in relation to different wood surfaces. Cambering of plane iron edges was also explained.

Although Chris enjoys hand tools and uses them a lot, he made it clear that to maintain a livelihood producing about 12 commissioned pieces a year, the use of machines is essential.

The workshop was conducted in Roy Underhill's Woodwrights School in Pittsboro with 21 club members in attendance. Chris had earlier shipped a box of his favorite tools and essential jigs, and separately the western alder wood for the box. This wood looks and finishes very much like cherry and is a current favorite of cabinet makers in the west. Most of the material had been cut and machined to size and about half the dovetails had been cut. As Chris said, you can only watch so many dovetails being cut.

Chris hand planed every surface with his plane irons very finely set to produce whisper thin shavings. He does this on all his work apparently, needing only a light sanding after, depending on the finish. He clamped two opposite boards together to saw the dovetails taking pains to use hand clamps to minimize vibration. The boards were separated for removal of the waste by a coping saw and were individually placed in a 'base line paring jig' for paring to the line.

This jig was described in detail and Chris provided copies of a sketch showing the details of construction, (to be loaded on our web page). Incidentally, students attending his blanket box making class at the Mark Adams' school are required to make such a jig and bring it with them.

Chris did not advocate paring or fine tuning the sides of the dovetails, rather he required accurate sawing to one side or the other of the scribed line. He places great emphasis on accurate sawing and recommends frequent practice. He used a scalpel to mark pins from tails and achieved a firm hand push fit from his sawn surfaces. Throughout the exercise Chris discussed the construction and use of each tool he employed and invited attendees to perform various operations.

One major advantage of using the Woodwrights School was the ability to use the hand held video camera and large flat screen monitor. The camera was mounted on the end of a billet of wood which enabled it to be inserted up close to the marking and cutting operations. Roy initially operated the camera and then the task was taken over by Bill Anderson who did a magnificent job of capturing every operation in close detail. This feature added tremendously to everyone's enjoyment of the workshop.

The base of the box was rabbeted to fit grooves in the box sides and ends and again members were invited to use the particular hand planes for the operations. Gluing up the box concluded Saturday's work.

Sunday was devoted to making the lid and the mitered moldings for the box. The lid frame was grooved and fitted using mortise and tenon joints which were secured by draw bored pins and no glue. The process was fully explained as it was demonstrated.

The lid panel had not been cut or machined to size and Chris demonstrated how to 'four square' the panel using hand tools. The panel was dimensioned from the frame and sized using a hand saw and was thickened by means of a fore plane, a jointer, and a smoothing plane. It was then grooved to suit the frame and radiused for appearance. Members were involved in all the operations.

The miter joints for the top and bottom rails and the lid molding were sawn and planed using a miter jig that Chris had made and the rails and moldings were finished by attendees using a wooden beading plane and an ogee molding plane in specialized jigs that Chris had brought.

The final hour was a little frantic in an effort to complete the box but this was achieved within the deadline.

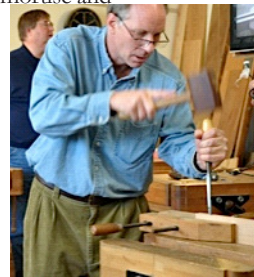

Chris presented the box to the club members present and it was decided to raffle it among the attendees, all of whom had participated in its construction. The delighted winner of the raffle was Greg Westmoreland

Paring dovetails

Roy with camera

Chopping a Mortise

Proud owner Greg Westmoreland with Chris

who asked Chris to autograph his new box and has the job of adding hardware and finishing as appropriate. Greg may be persuaded to bring the finished box to 'show and tell' one evening.

Everyone appreciated Chris' friendly and open style of demonstration and explanation; his craftsmanship and love of woodworking were most evident. The opportunity for hands on involvement in the several processes was regarded as most valuable.

Respectfully Submitted by: *Mike Reddyhoff*

Toys for Tots

Now that Thanksgiving is behind us and we have enjoyed family and friends and eaten too much the country is focused on Christmas. TWA has been in the Christmas spirit since August

when we had our first workshops. Some of us, for instance Bruce Wrenn has been working since January. Bruce has single handedly turned out over 1000 VWs, cut to feed our workshops. Having the first step in assembly done gets the workshop moving and increases the output significantly. Thank you Bruce.

We will be celebrating our 26th year of giving toys to the Marine Corps Toys for Tots program. See the Program description for more detail. Please join our celebration. We would like to see all that can be there even if you were not able to join in the creation of the toys, come and see what this wonderful event is all about.

I will express in person at the meeting how grateful I am to all those who have made yet another year a great success. For those who cannot attend the meeting night -- a HUGE thank you for all you have done to support such an enormously worthy cause.

Status of the TWA sponsored workshops below.

Toys for Tots Chairman: *Fred Ford*

Workshop Status Report

Team Leader	Host Location	"Planned" Toys	# Planned	# Made
Bob Gabor	Bob's Shop	Mini Coopers & Tote Boxes	50 & 25	20 & 6

A Message of Hope

December 13th, 2011

Location: The Preserve Club House at 1153 Smith Creek Way, Wake Forest, NC 27587

The agenda for the meeting is:

- **6:00pm** Set Up Crew arrives to set up tables and chairs
- **6:30pm** Members with toys to display and/or finger food for the social arrive
- **7:00pm** Socialize and Eat
- **7:30pm** Roy Underhill speaks
- **8:00pm** TOY Show and Tell & Raffle Drawing
- **9:00pm** Adjourn and load toys. All hands please help.

Caution: This location may not be found in your GPS.

Directions from Wake Forest / North Raleigh

Take Capital Blvd./Route 1 north and make a left onto Rt. 96 toward Oxford. Go 4.5 miles and turn left at the blinker (which may or may not be blinking) onto Pocomoke Road. (Do NOT turn 1/2 mile earlier at the Pocomoke Arena sign!) Go 2.6 miles (it becomes Bruce Garner Road) and turn right onto Smith Creek Way. You will see the Clubhouse immediately on your left.

Directions from Durham

Take Durham Road/Rt. 98 east. Cross Creedmoor Road/Route 50 and make a left at the next light onto New Light Road. Follow New Light road for 8.8 miles (it becomes Bruce Garner Road) and then turn left onto Smith Creek Way. You will see the Clubhouse immediately on your left.

Directions from Cary

Take Exit 9 off of Rt. 540 and turn left onto Creedmoor Road/Route 50. After 5 miles, take the ramp onto Durham Road/Rt. 98 East toward Wake Forest. Make a left at the next light onto New Light Road. Follow New Light road for 8.8 miles (it becomes Bruce Garner Road) and then turn left onto Smith Creek Way. You will see the Clubhouse immediately on your left.

We welcome 0 new members this month. A colored dot on a name tag indicates that the member is new, so be sure to say hello and welcome them.

Membership Chairman: Kay Baker

Mentors Wanted/Needed

The purpose of TWA is to provide a forum for woodworkers to gather, exchange information & further the art of woodworking. To this end, those more skilled woodworkers are encouraged to become a Mentor to provide knowledge to other members regarding areas of the Mentors skill, experience & knowledge. If you are interested in being a mentor, and willing to help a fellow woodworker discover answers to their questions, please contact Larry Bradbury, 919-518-6891 or lbradbury12@yahoo.com

Mentors

The purpose of this program is to have a reference guide of whom to call when you need to "pick someone's brain", because *Rule #1 in woodworking: nobody has a monopoly on brains!* This list of people includes: contact information, projects the Mentors are comfortable offering advice about, and skills they would be able to help with.

Mentor	Service/Skill Offered	Phone Number	Email Address
Bernie Bogdon	Relief Carving	(919) 850-0739	sabile_27615@yahoo.com

CLASSIFIED ADS

Classified ads are free to all members. To have an item posted send a note to: TriangleWoodworkers@gmail.com or our Newsletter editor: irishrose2365@yahoo.com.

All ads will run for 2 months unless otherwise notified.

TWA LIBRARY

All TWA members are welcome to sign out a maximum of three items at a time. Items checked out are due to be returned at the next monthly meeting. Returned items should be placed in the "Returns" box in the library area. The late fee for each item is \$2.00 per month. Any late fee's owed by a member must be paid before any further materials can be checked out by that member. If you know you can't make it to the next meeting you can avoid the late fee(s) by mailing the item(s) to Kay Baker, 610 Benfield Ct., Garner, NC 27529, or by calling (919) 696-8504.

As we all share a love for wood -- we would like to share the media which we have at our disposal as well. Please be conscious of your fellow member and return items in a timely manner.

To Check Out an Item

Find the circulation card located in the back of books and inside of any material in a case. Sign and add the current date to the card. Place the card in the wooden "Check-out-Box" located on top of the library cart.
